Hydrophobic
Thanks to their hydrophobic features, Sanovit products quickly remove water from the body and minimize the growth of bacteria in the water.

Anti-Scratch
With its durable glaze coating, it is not affected by the products used for cleaning.

Antibacterial
Thanks to its surface flatness and smoothness, it makes it difficult to grow bacteria on the surface.

High Heat Resistance
Thanks to ceramic's high-temperature resistant characteristics and properties, ceramic products are very resistant even to very high heat shocks.

Impact Strength
Thanks to Sanovit's raw material and production technology, products show high resistance against impact shocks.

Chemical Resistance
Thanks to its high-quality glaze technology, it is very resistant to cleaning products and chemicals.

Dimensional Stability
FFC is resistant to dimensional changes thanks to its resistance to raw materials and environmental conditions.

Easy Cleaning
It is easy to clean with smooth surface technology and high technology glaze coating.

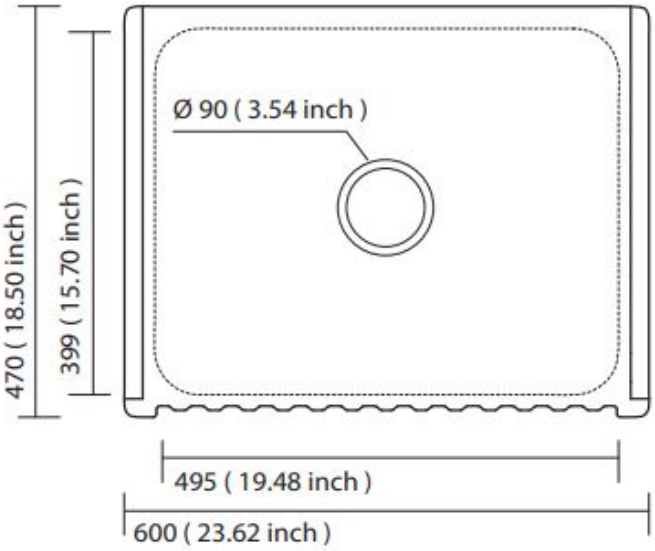

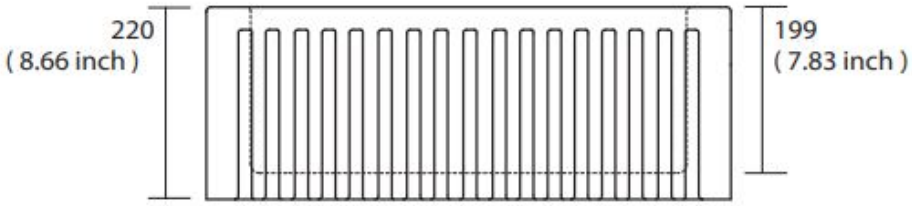

Absorbs Odor
Thanks to the excellent porous properties of the ceramic surface, it absorbs odor.
